Install the cushion assembly onto the frame assembly and confirm that the cushion assembly is reliable.

Install the upper-half headgear onto the upper-half installation hole of the frame assembly.

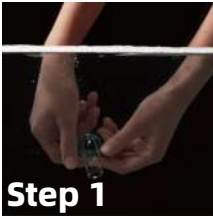

Cleaning Guide

N5+ Nasal Mask

Daily Care

Step 1

The components should be soaked in a mild liquid detergent solution (as dishwashing liquid) with drinking-quality water (25°C to 35°C) for 10 minutes.

Step 2

Please gently clean with a soft-bristled brush, paying particular attention to crevices and cavities.

Step 3

Rinse the components thoroughly with clean water.

Step 4

Ensure the components be air-dried in a location that is not exposed to direct sunlight.

Weekly Care

Step 1

The headgear should be hand washed in a mild detergent solution (as dishwashing liquid) for 10 minutes.

Step 2

Ensure thorough rinsing and allow for complete air-drying, avoiding direct sunlight.
